commercial temporary structures

ANYWHERE AND FOR ANYTHING

Berry Marquees has a vast range of structures for temporary buildings whether for event, film or television production, exhibitions, maintenance, industrial storage or manufacturing. We are proud to call some of the country's most distinguished and discerning companies, across a vastly disparate group of industries, our long-term clients. We believe this is testament to the adaptability, efficiency and creativity behind the Berry Marquees brand. Our buildings can be constructed almost anywhere and at any time, for any length of hire period, or purchase. Berry Marquees' industrial marquee range is the ultimate in flexibility enabling you to rapidly reconfigure your business and adapt to changing work volumes.

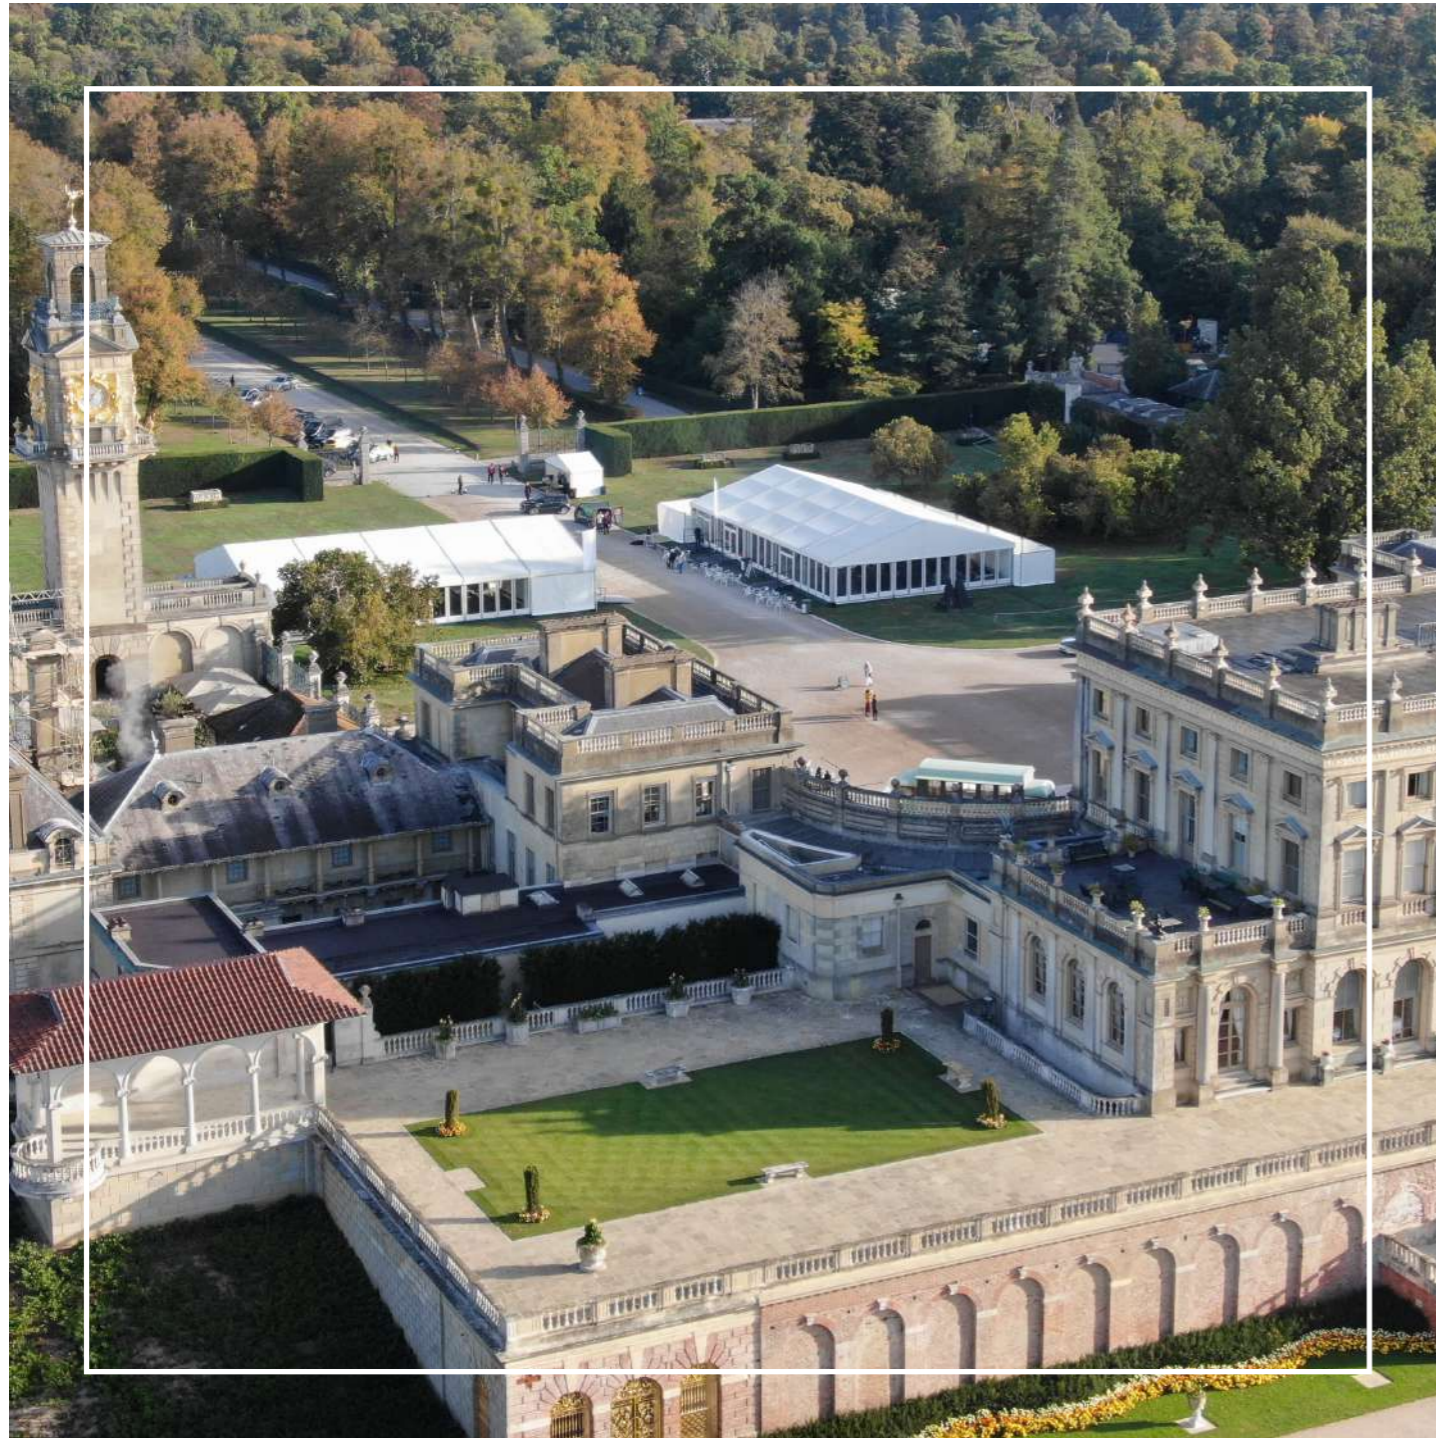

exhibition structures

STAGING YOUR PRODUCTION

Stand out with the contemporary clean lines of a Berry Marquees exhibition structure. Our marquees can be completely clear, to encase your product, fully branded to pull in the crowds, hard walled or glass sided or completed in company colours. Our temporary structures are designed and erected to compliment any production from London Fashion Week catwalk shows to international B2B business exhibitions, small interior exhibitor stands to grand scale promotion events. Berry Marquees has built temporary spaces within palaces and royal parks, atop major buildings, even on the decks of ships.

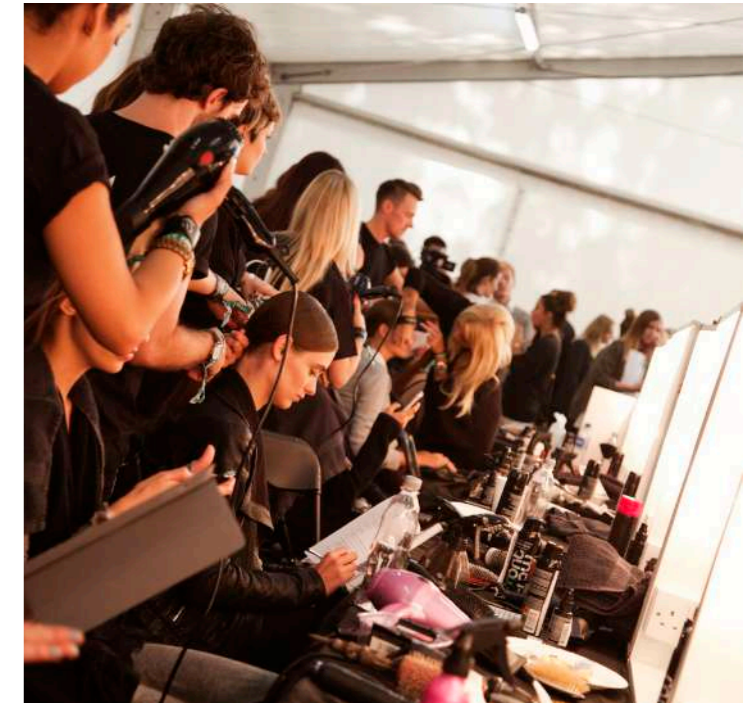

extra space

TEMPORARY SOLUTIONS

Found the ideal venue, but struggling for additional space? Berry Marquees is an industry leader in connected buildings, creating seamless temporary expansions to extend a venue's square footage, or enable a change of use.

Adding on back of house rooms from kitchen facilities to offices, workshops, stores, audience housing, wardrobe or green room space can turn a challenging production area into a made to measure, purpose built environment.

industrial spaces

LONG TERM HIRES

A temporary structure from Berry Marquees can solve a space issue, literally overnight.

It can quickly, cost effectively and easily provide warehousing space, expanded production, short term offices or employee weather protection without the massive investment, time or logistics required for a conventional build.

A temporary structure does not need planning permission for up to 28 days, (at which point temporary permission is a straight forward process). Our buildings can be erected onto soft ground or hard standing, can provide raised, dry, level flooring, soft or hard sides for security and be built exactly to space requirements.

Berry Marquees structures can be free standing or work as a seamless expansion of, (or space within) an existing structure. Our marquees can be climate controlled to regulate temperature throughout the year.

careful planning

SKILLED DESIGN, CLEVER CONSTRUCTION, IDEAL SOLUTIONS

Berry Marquees is an industry leader in providing properly researched, safely constructed and maintained builds for long term hire. Upon receiving your enquiry Berry will carry out a site inspection to assess the opportunities and challenges of the location and make recommendations.

Berry may employ GPS site mapping, scanning for underground services, laser levelling and computer aided design to produce exact scale drawings, ensuring you can visualise precisely how hard your temporary structure will work for you.

For smaller scale and interior exhibition builds we take no less trouble to ensure clever, safe and maintained constructions. We work closely with major exhibition companies across the United Kingdom and have a wealth of experience and understanding of the challenges of the exhibition business. We carry over ten million pounds in public liability insurance.

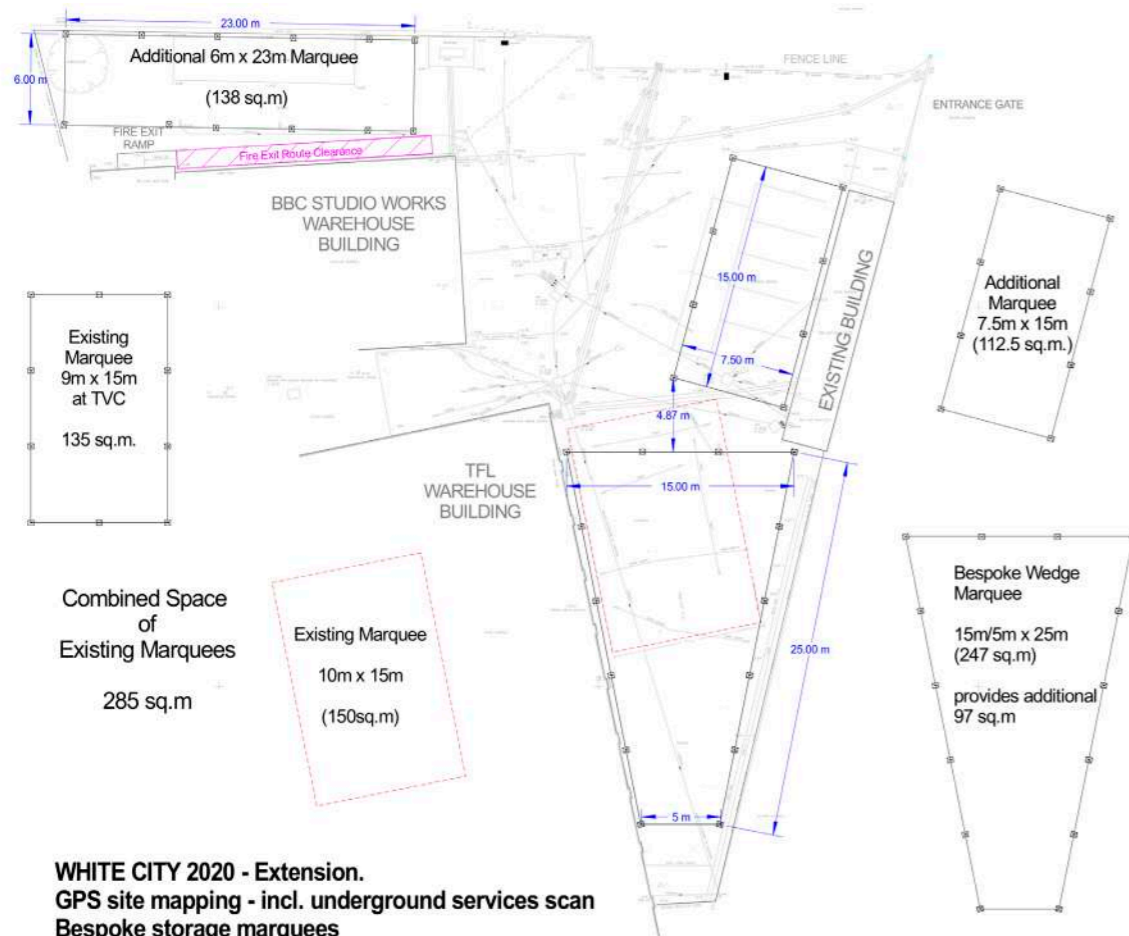

Berry will make recommendations as to materials, ancillary hire requirements and provide a detailed and fully costed final quote along with strictly adhered to build time table. Following construction and handover, care does not stop there. We also utilise digital wind monitoring equipment, as well as scheduled regular maintenance checks to ensure the ongoing safety of your site and your peace of mind.

health & safety

OUR PRIORITY AND YOURS

Our build teams are trained to exacting standards, thoroughly security checked and enthusiastic experts for what they do. Berry Marquees has a reputation built on more than two decades leading the industry and our teams, from design to construction to warehouse and equipment maintenance, are renowned as the best in the business.

We take safety to heart. The protection of our workforce, clients and partner contractors is paramount. We produce detailed risk assessments, regulate all our procedures, review every build and take down for learnings, and rigorously maintain all equipment, whilst promoting the same exacting standards in all our subcontractors. Berry Marquees is a proud member of the Made Up Textiles Association. We are regularly inspected to ensure our adherence to the robust best practices set down by the MUTA Mark.

Our sites are secure, our work is neat and our clean up is efficient and impressive. We build to budget, to deadline and to delight our clients!
