LUXURY WEDDING MARQUEE HIRE

From micro to magnificent, simple to stunning, every couple will have their own ideas for a perfect wedding celebration. Only a Berry marquee can offer you a venue as truly unique as you are.

Conventional venues will, by definition, require compromises of taste and creativity. Decor is dictated by what is in place. Timings can be curtailed by multiple ceremony bookings. A marquee is all yours, from initial layout to interior design and is available to you for as long as you desire. A marquee is a never-to-be-repeated, spectacular demonstration of your story, your personality and your generosity.

Our skilled designers will guide you through the process to create the backdrop to your dream day, from computer aided design to romantic reality. Your wedding is one day that must last a lifetime, Berry Marquees truly appreciate this and will ensure it is as unique as you are.

getting started

PRESENTING THE HAPPY COUPLE

First set your budget. Berry Marquees will create a spectacular space for you, but with the sky's the limit potential of a marquee wedding, you need to set the boundaries within which we can realise all your dreams.

Your next decision is theme. How do you want to present your newly married selves to the world? Are you looking for a stylish contemporary space filled with light, a classically elegant affair or perhaps the warmth of a country gathering? Indeed you may be seeking a combination of all three. A marquee is only ever limited by your imagination, for example secret rooms can be revealed throughout the event changing themes and bringing gasps from your guests.

Talk to our designers about those "Do you think we could...?" ideas. The answer with Berry Marquees will always be 'of course you can!'

spaces that work for everyone

DELIGHT YOUR GUESTS

A marquee offers opportunities to incorporate different rooms and varied themes, not only to separate out the stages of your wedding – from ceremony, to breakfast to band and evening, but also to offer different environments in consideration of your guests.

A chill out zone for the party animals, a formal lounge for older guests, a soft play space for the little ones, incorporated wash room facilities, or a grown-up games room.

bringing the inside out

MAKE THE MOST OF YOUR LOCATION

Unlike a closed in ballroom, a marquee will celebrate its surroundings, from clear roofs and glass walls to beautiful decks built onto the structure to make the most of the vistas.

Allow your guests to float between inside and outside effortlessly, glorying in the views, watching the sun go down, swishing sparklers or sitting by a fire pit late into the night, as they take a break from the dancing to see the stars.

day to night

RE-SET THE SCENE

As the sun begins to set you may choose to welcome additional friends.

You will want to maintain a 'sense of arrival' for these guests, but there is a certain softening of formality at this stage.

Opening up a new room with lounging furniture and a softer lighting scheme can create a warm atmosphere as day and evening guests begin to mingle.

The area could include a dance space for you to take to the floor for the first time as a married couple, and a stage for the jazz band, or grand piano.

However you decide to theme this cross over from day to night, Berry's wealth of experience can offer you an elegant design scheme.

club you

BREAK WITH TRADITION

The formalities are over, the cake has been cut and now it's time to focus on your friends and party!

Whether you opt for a big reveal and a headline act, or simply slide in the bar and switch over the lighting, Berry will help you to create your ultimate fantasy club night.

A marquee wall can be lined with satin, projected onto or even become instantly transparent.

Berry's can create chill out zones with sumptuous furnishings, glittering dance floors, and lighting schemes worthy of the wildest Ibiza nights.

If you decide to go all night you needn't even worry about disturbing the neighbours with clever sound proofing materials available, just let us know your needs.
