MARQUEES AND ACCESSORIES

Berry Marquees Ltd supplies clearspan marquees and accessories to the TV & Film industry across the UK and Europe. Our award winning service has secured us preferred supplier status with BBC Studioworks and The BBC (5+ years) amongst others. Our highly skilled designers and builders have put temporary structures onto and into a staggering variety of locations from the top of buildings to the decks of ships. We pride ourselves on always delivering on time, on budget, exceptional quality marquees suited as well to be in front of, as behind the cameras.

multi-purpose

ANY SIZE, ANYWHERE AND FOR ANYTHING

Efficiency is everything when our time is your money. Berry Marquees, gets it in, gets it built and gets it operating, so when your production team arrives, your complete location build is ready to roll. Our temporary buildings are solid, safety checked and constructed to the highest specifications in the industry today.

- Workshops
- Scene docks
- Site security
- Audience holding areas
- Set storage
- Dressing rooms & wardrobe
- Rehearsal spaces
- Green room facilities
- Catering and welfare
- Long term storage

Our soft, glass and hard sided marquees are designed to fit almost anywhere no matter the ground conditions, how tricky the access or size of the final structure required.

Unlike solid cabin-style options, our temporary buildings can simply be carried in through the front door or down a narrow passageway. No need for cranes or other complications. We will make use of the most awkward space to provide your cast and crew with a comfortable, climate controlled, solid floored and practical, working environment.

careful planning

SKILLED DESIGN,
CLEVER CONSTRUCTION,
IDEAL SOLUTIONS

Berry Marquees is an industry leader in providing properly researched, safely constructed and maintained builds for long term hire. Upon receiving your enquiry Berry will carry out a site inspection to assess the opportunities and challenges of the location and make recommendations.

Berry may employ GPS site mapping, scanning for underground services, laser levelling and computer aided design to produce exact scale drawings, ensuring you can visualise precisely how hard your temporary structure will work for you.

For smaller scale and interior builds we take no less trouble to ensure clever, safe and maintained constructions. We will liaise closely with your crew and all on site stakeholders to ensure a smooth and safe build. For your peace of mind we carry over ten million pounds in public liability insurance.

site management

AS MUCH OR AS LITTLE
AS YOU REQUIRE

Berry will make recommendations as to materials, ancillary hire requirements and provide a detailed and fully costed final quote along with strictly adhered to build timetable. Following construction and handover, care does not stop there.

We utilise digital wind monitoring equipment, as well as scheduled regular maintenance checks to ensure the ongoing safety of your site and production.

health & safety

OUR PRIORITY AND YOURS

Our build teams are trained to exacting standards, thoroughly security checked and enthusiastic experts for what they do. Berry Marquees has a reputation built on more than two decades leading the industry. Our teams, from design to construction to warehouse and equipment maintenance, are renowned as the best in the business.

We take safety to heart. The protection of our workforce, clients and partner contractors is paramount. We produce detailed risk assessments, regulate all our procedures, review every build and take down for learnings. We rigorously test and maintain all equipment, whilst promoting the same exacting standards in all our subcontractors.

Berry Marquees is a proud member of the Made Up Textiles Association. We are regularly inspected to ensure our adherence to the robust best practices set down by the MUTA Mark.
